6 June 2018

Dear Parents and Carers

Fun Run 2018 – Weather Conditions

Our annual Fun Run is due to take place this Friday 29 June. As you are aware, we are currently experiencing some rather hot weather. Despite this, the Fun Run will still be going ahead, so it is imperative that you provide your son/daughter with water, sun cream and a hat for the event.

In preparation for the hot weather, we have shortened the course from 8km to approximately 5.5km. We also encourage students and staff to walk if necessary. By shortening the run, students may finish quicker than previously expected. Students will be dismissed from School as soon as they have registered at the finish line, so from 1.30pm onwards.

The School will be providing water stations around the course for students and staff. Whilst water will be available at the stations, they will not be unlimited due to their location off site, and therefore we need students to bring their own water. Students and staff can carry water in small backpacks to run with. We have trained first aiders on hand around the course and back at School should they be required.

We also have Year 8 girls participating in 'This Girl Can Day' on Monday 2 July, and the whole School participating in Sports Day on Friday 6 July. As the hot weather is due to continue, the same message regarding water, sun cream and a hat will also apply to these events.

Your support in this matter is much appreciated.

Yours sincerely

Miss K Townshend
PE Teacher
