29 April 2019

Dear Parents and Carers

**HPV Vaccination – Second Dose**

The School Immunisation Team will be visiting the School on **Thursday 9 May** in order to administer the second HPV vaccine dose to your daughter.

As you have previously consented for the first dose, consent for this vaccination is not required.

If your daughter did not receive her first dose and you wish her to do so, please contact the **Immunisation Team directly** on **01582 711 581**.

Students will receive their allocated time slots via their form tutor this week so they will know when to visit the nurse. You may wish to provide your daughter with a single dose of paracetamol which students are permitted to carry on them at all times if necessary. It is also important that they are well hydrated and have a good breakfast before receiving their vaccination.

If you do not wish for your daughter to receive this vaccine, please contact the Immunisation Team on the number above.

Yours sincerely

Miss C Fitzgerald
Welfare and Admin Assistant
