13 March 2017

Dear Parents and Carers,

**Year 11 Collapsed Day for English and Science**

In order to support and give additional teaching to Year 11 in preparation for their examinations we have been given two days off timetable for extra English and Science lessons. One of these days was the Enrichment day (6 March) and the next will be Monday 26 March.

Students will be in the same groups as on Enrichment day (these will be circulated again on the day and put on Show my Homework as a reminder). The Right side of the year group will receive 3 periods of English Literature in the morning where they will be revising skills for the examinations with a focus on Macbeth and Dr Jekyll and Mr Hyde, and then 2 lessons of Science where they will focus on Required Practicals. The Left side of the year group will begin with 3 lessons of Science and then two lessons on English Literature.

The day will provide additional materials, examination practise and different approaches to their revision. This is a good opportunity for students to aid their revision and we do hope they take it seriously. The students will need to attend School in uniform as usual and bring their necessary equipment for English and Science (this should include their annotated copies of Macbeth and Dr Jekyll and Mr Hyde).

Yours sincerely

Mrs Doyle
Head of the English Faculty and AAHT

Mr Bilton
Head of the Science Faculty
